

# ADMISSIONS 2022

## MASTER OF ARCHITECTURE (SUSTAINABLE ARCHITECTURE)

learn more >> [www.spav.ac.in](http://www.spav.ac.in)

The key objective of the programme is to develop skills, knowledge and understanding related to environmental sustainability, construction and building technology, adopting the principles and practices of sustainable building design, while responding to environmental challenges such as climate change, environmental degradation etc.

### About the course

The course offers a contextualized and deep understanding of sustainability in architecture. The study moves from the broad aspects of man and Environment, energy and climate zones, through alternative materials and technologies for sustainability, urban sustainability issues, to the specifics of energy and environmental assessment. Waste management, Intelligent buildings, Eco cities, Passive & Active strategies for energy conservation will be explored along the way. Throughout the course students are encouraged to challenge existing orthodoxies and explore potential, cultural and technical responses to a changing world, whilst respecting the limits posed by our ecosystem.

### Eligibility

The applicant must have Bachelor's degree in Architecture in appropriate discipline with a CGPA of 6.5 on a 10-point scale or 60% marks in case of General/OBC/EWS candidates in qualifying degree, whereas in case of SC/ST/PH candidates a CGPA of 6.0 on 10-point scale (or equivalent) or 55% marks in the qualifying degree will be applicable as per GOI norms adopted by the institute
