I. EDUCATION AND QUALIFICATIONS

2021

PhD. in Architecture

**From Department of Architecture, School of Planning and Architecture, Vijayawada, India
An Institution of National Importance, Ministry of Education, Government of India**

Selected for the '**Erasmus Plus Global Mobility scholarship**' to undertake part of the research at Norwegian University of Science and Technology, Trondheim, Norway in 2016.

2008

M.ARCH in URBAN DESIGN

**From School of Planning and Architecture, New Delhi, India, An Institution of National Importance,
Ministry of Education, Government of India, with GATE Scholarship**

M.Arch Thesis Title: An Urban Design approach to a Sustainable Compact City in new growth potential areas: A case of Cyberabad, Hyderabad

2003

B.ARCH

Andhra University College of Engineering, Andhra University, Visakhapatnam, India

B.Arch Thesis Title: Revitalization of a Tribal Community- A Case of Araku Valley

PHD THESIS

PhD Thesis Title: "Floor Space Index and Liveability of Residential Neighborhoods- Establishing linkages for retrofitting"

"The research synthesizes the aspects of Liveability and dwells upon how the parameters help to moderate and play instrumental role in a certain kind of experience by the residents. The research undertaken helps in devising or retrofitting FSI in existing areas as demonstrated, to enhance Liveability, particularly for residential neighborhoods. However, this conclusion is significant enough as ward level FSI's in small and medium towns in India, predominantly low rise, do not still have permissions beyond FSI of 1.75 or 2 in general. If FSI is relaxed up to 3 or height restrictions are relaxed to arrive at an effective FSI of 3 as per abutting road widths, there can be no adverse implications. Higher FSI upto 3 can actually bring up Liveability and prospects of higher revenues for Urban Local Bodies." Various dimensions of the research evaluation contribute to both theoretical body of knowledge and for real time development interventions in the practice.

During my research tenure, I was awarded the '**Erasmus Plus Global Mobility scholarship**' to undertake part of my research at Norwegian University of Science and Technology, Trondheim, Norway in 2016.

II. AWARDS, ACHIEVEMENTS and GRANTS

- ASIA PACIFIC- Charles Correa Distinguished Architect Award, December 2020, Awarded by the International Multidisciplinary Research Foundation- Institute of Higher Education and Research
