From the _____ DIRECTOR'S DESK

Dear Recruiter,
Greetings from SPA Vijayawada!

It is my pleasure to invite you all to the placement activities of our institute. Since its inception in 2008, SPA Vijayawada has been committed to train responsible, ethical and professional architects and planners. As an institute, SPAV has never compromised on its mission to achieve academic excellence through innovation and research, and the same is reflected in the unwavering spirit and continued endeavour of our faculty and students who have earned national and international accolades for the institute. For all the nine degree programmes (two Undergraduate, Eight- Post-Graduate), the curriculum is designed in such a way that the students are exposed to the practical world through study tours, field visits, hands-on workshops, seminars, group discussions, interactions with professionals and alumni, as well as a host of other activities to help them prepare for their placements.

We are excited to release our Placement brochure which details our efforts towards guiding the career paths of our students. On behalf of the entire SPAV Fraternity, I would like to show my gratitude to all the past, present and future recruitment partners for their participation and continued trust shown in our students.

Prof. Dr. Ramesh Srikonda
Director, SPA Vijayawada

ABOUT SPAV

ESTABLISHED BY
Ministry of Education

JULY 7
2008

Centrally Funded
Technical Institute

CFTI

Institute of National
Importance

At SPAV, the academic focus and approach is a unique blend of design, creativity and objectivity with a social purpose. Students not only learn the skills required, but during the course of studies are exposed to thought-provoking and intellectually inspiring sessions, through studios, field trips and research projects, which brings out the creative best in them.

PROGRAMS OFFERED

UNDER GRADUATE

B.Arch + B.Plan

POST GRADUATE

MASTERS IN

Sustainable Architecture
Landscape Architecture
Architectural Conservation
Building Engineering Management
Urban Design
Planning and Management
Urban and Regional Planning
Transportation and Infrastructure

DOCTORAL PROGRAMME

The Department of ARCHITECTURE

SPAV tries to reinforce intellectual capabilities and develop proficiency in professional skills to enable students to competently pursue alternative careers, within the broad spectrum of architecture.

There is increasing recognition today of Architecture as an intellectual discipline, both as art and as a profession. Architects make a vital contribution in the shaping of our environment and society, in the design and technology for a diverse range of situations, both in the rural and urban contexts.

The Department of Architecture is involved in stimulating sensitivity and unveiling creative talents in the young minds. The department hones architectural professionals for future with appropriate skills, understanding and knowledge and a deep commitment to professed ideals.

BACHELORS OF ARCHITECTURE

The Bachelor of Architecture Degree programme prepares students for professional practice in the field of Architecture. Being an undergraduate programme, it has a broad scope, providing exposure to a variety of interests in this field and assisting students to discover their own directions for further development.

There is increasing recognition today of Architecture as an intellectual discipline, both as art and as a profession. Architects make a vital contribution in the shaping of our environment and society, in the design and technology for a diverse range of situations, both in the rural and urban contexts.

In India, we have further complexities of different social, cultural, geographical, economic and technical nuances which are unique and typical of every region in our country. It is the appreciation of this over-changing context that the architect must bring to bear of his work. This demands appropriate skills, understanding and knowledge and a deep commitment to professed ideals.

Addressing Architectural Design as a comprehensive creative process, this programme is based on the following broad intentions:

- To stimulate sensitivity and unveil creative talents.
- To reinforce intellectual capabilities and develop proficiency in professional skills to enable graduates to competently pursue alternative careers, within the broad spectrum of architecture.
- To provide opportunities to students to try out the role they will eventually play as responsible members of society, under supervision and interactive guidance.

Batch of 2025

Batch of 2025 with their Architecture Faculty

School of Planning and Architecture, Vijayawada

CURRICULUM

- The program aims at attaining a high level of excellence in Architectural Design. To this end, the design course is seen as the core of the programme with supportive inputs from courses in other streams viz., the Humanities, the Technological and the Professional, built upon a strong foundation of enabling skills in communications and data processing.
- The emphasis is on the development of faculties of discernment and decision-making with the aid of both objective information and subjective attitudes, based on reason.
- Given the complexities of present-day design projects, the architect's role is that of a team Leader and coordinator of the input of specialists in various specific disciplines.
- They need to possess a sound knowledge of all aspects of modern building technology to be able to draw up an integrated framework for activities of the other members of the team, to direct them and to assume overall responsibility for the collective effort.

LIST OF COURSES

DESIGN STREAMS

- Architectural Design, Theory of Design

TECHNOLOGICAL SYSTEMS

- Building Construction, Advanced Building Technology, Theory of Structure, Building Science and Services, Climatology, Water and Waste Management, Electrical Installation, Lighting and Acoustics, Ventilation, Communication and Security Systems, Integrated Energy Management), Building Management.

PROFESSIONAL STREAM

- Surveying and Leveling, Contracts, Quantities and Estimation, Building Economics, Project Management, Professional Practice.

HUMANITIES

- History of Architecture, Art Appreciation, Theory of Settlement

ENABLING SKILLS

- Mathematics, Graphics and Communication, Computer Applications.

ELECTIVES

- Product Design, Entrepreneurship skills and Project management and finance modelling.

NOTABLE HIGHER EDUCATIONAL INSTITUTES AND HIRING ORGANISATIONS

Students of SPAV are well-placed across the nation in various capacities. A large number are working with the government as architects and planners, with a sizable number working as corporate consultants spread all over India.
