From the **Director's Desk**

Dear Recruiter,
Greetings from SPA Vijayawada!

It gives me great pleasure to invite you to the placement activities of our institute. Since its inception in 2008, SPA Vijayawada has been dedicated to shaping responsible, ethical, and skilled architects and planners. We believe in nurturing talent through academic excellence, innovation, and research, while encouraging our students and faculty to explore new ideas and make meaningful contributions to their fields. Our students gain valuable practical experience through study tours, field visits, hands-on workshops, seminars, group discussions, and interactions with professionals and alumni. These experiences help them connect classroom learning with real-world challenges and prepare them for their future careers.

We are pleased to present our Placement Brochure, offering a glimpse into our students' capabilities, achievements, and aspirations. On behalf of the entire SPAV fraternity, I would like to express my sincere gratitude to all our recruitment partners for their continued trust, support, and association with the institute. Your involvement plays an important role in helping our students take their first steps into the professional world. We look forward to strengthening our existing relationships and welcoming new partnerships as we work together to create promising opportunities for our graduates.

Prof.Dr.Ramesh Srikonda
Director, SPA Vijayawada

The Department of **Architecture**

SPAV tries to reinforce intellectual capabilities and develop proficiency in professional skills to enable students to competently pursue alternative careers, within the broad spectrum of architecture.There is increasing recognition today of Architecture as an intellectual discipline, both as art and as a profession. Architects make a vital contribution in the shaping of our environment and society, in the design and technology for a diverse range of situations, both in the rural and urban contexts.

The Department of Architecture is involved in stimulating sensitivity and unveiling creative talents in the young minds. The department hones architectural professionals for future with appropriate skills, understanding and knowledge and a deep commitment to professed ideals.

Students engage in critical inquiry, research, and design thinking that address contemporary challenges such as climate resilience, cultural continuity, social equity, and technological evolution

Curriculum

- The program aims at attaining a high level of excellence in Architectural Design. To this end, the design course is seen as the core of the programme with supportive inputs from courses in other streams viz., the Humanities, the Technological and the Professional, built upon a strong foundation of enabling skills in communications and data processing.

- The emphasis is on the development of faculties of discernment and decision-making with the aid of both objective information and subjective attitudes, based on reason.

- Given the complexities of present-day design projects, the architect's role is that of a team Leader and coordinator of the input of specialists in various specific disciplines.

- They need to possess a sound knowledge of all aspects of modern building technology to be able to draw up an integrated framework for activities of the other members of the team, to direct them and to assume overall responsibility for the collective effort.

List Of **Courses**

- **DESIGN STREAMS**
  Architectural Design, Theory of Design

- **TECHNOLOGICAL SYSTEMS**
